REGULATE CO-OPERATION IS URGED AS TRUST SOLUTION

ROCHESTER, N. Y., June 26.—Retention of competition, prohibition of monopoly, permission for co-operation of the latter, instead of regulated competition or regulated monopoly was suggested today as the solution of the trust problem of the country by President Charles R. Van Hise, of the University of Wisconsin, in an address at the annual meeting of the National Association of Credit Men.

"There may be great magnitude of business, and not monopoly," declared President Van Hise. "Indeed it is believed that by far the greater number of the large organizations fall short of monopoly. Only if we assume that if all the great combinations of industry are monopolies, does the conclusion follow that they should be destroyed? Not only do I hold that not all large business is monopolistic, but that concentration up to a certain point is to give efficiency.

"If we retain freedom of competition, permit concentration sufficient to give efficiency, allow reasonable co-operation, and prevent monopoly, this will require regulation just as it has been necessary to regulate the railroads. This done, the Sherman law will be forgotten. Has there been any prosecution of the railroads for violation of the Sherman law because of collusion in fixing rates? And yet everyone of us knows that they are just as flagrant violators of the Sherman act as any other class of corporations in the United States. Are the freight rates the same for different roads between any two points? Are the passenger rates between New York and St. Louis identical on all roads? Can you do better in price by traveling over the Pennsylvania than any other road? The rate is the same, providing the speed is the same.

"For a number of years it has appeared to me that the interstate commerce commission and the numerous state commissions having the control of public utilities and the pure food commission clearly point the way for the next step in the solution of our industrial problems.

"The most fundamental difference between the United States Steel Corporation, the Standard Oil Company, and other very large businesses and the public utilities and the other has been declared to be vested with a public interest and the other has not. Every business that is so large as to be vested with the public interest should be subject to control. Not only so, but wherever different companies or groups of companies co-operate so that they control the market for any article, their transactions become vested with a public interest.

"An interstate trade commission should be created for interstate commerce and state trade commissions for state commerce, each to have control over business which is vested with a public interest or in which the market is controlled, precisely as the public utilities commissions have control over the public utilities. It is to be noted that this proposal does not imply that the administrator commissions shall have control of all business, but only business which, because of magnitude, or because of co-operation, become vested with public interest. The initiative in control of business will remain with the business organizations precisely the same as at present; but whenever an organization performs any act, which, in the opinion of the appropriate commission under the powers granted is contrary to the public interest, that body may intervene. My proposal is that the restraint of trade, either by contract, or by agreement, or co-operation in limitation of output, division of territory, or fixing of prices, be prohibited so far as they are inimical to the welfare of the public. Not only so, but it may be wise to make a presumption that actions of corporations along the above line are inimical to the welfare of the public until approved by the commission. But when any act of co-operation has been approved by the commission it should be free from attack. By this simple expedient the situation becomes cleared. Co-operation for all classes of business would be allowed to continue, so far as it was not inimical to the public welfare."

of the large organizations fall short of monopoly. Only if we assume that if all the great combinations of industry are monopolies, does the conclusion follow that they should be destroyed? Not only do I hold that not all large business is monopolistic, but that concentration up to a certain point is to give efficiency.

SERENO E. PAYNE 71 TODAY
WASHINGTON, June 26.—Sereno E. Payne, congressman from New York and who helped frame the Payne-Aldrich tariff bill, and who was de-throned in the famous rules fight which relegated "Uncle Joe" Cannon to the ranks, was 71 years old today. The New York congressman was recipient of hearty and cordial congratulations from his many friends in Congress, his friends of the "other side" who are his political enemies, leading in an informal demonstration in Payne's honor. Speaker Clark was expected to follow his program of last year and congratulate Congressman Payne from the chair.

My Cleansing, Healing Balm Instantly Clears Nose, Head and Throat—Stops Nasty Catarrhal Discharges. Dull Headache Goes.

Try "Ely's Cream Balm." Get a small bottle anyway, just to try it. Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-n-head or catarrhal sore throat will be gone. End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous dropping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.—Advertisement.

IS HURT IN AUTOS' SMASH

Machines at Fullerton Crashed and Woman is Picked Up Unconscious

Anaheim Herald: Last evening as Mr. and Mrs. McCombs of West Wilshire avenue, Fullerton, were driving home in their auto they collided with another car about two miles south of this city. Mrs. McCombs was quite seriously hurt and suffered a severe contusion of her head. Her shoulder was also badly bruised by the collision and she was given quite a shake-up.

As they were returning from a trip to Santa Ana and Orange they were traveling at a moderate rate and were in the act of passing a truck with a wagon trailer when a car coming from the opposite way ran into them and caused the accident. Mrs. McCombs was thrown to the pavement and was picked up unconscious. She was bleeding quite freely from the wound in her scalp and was placed in R. O. Henderson's auto and brought to the Anaheim Sanitarium where she was given medical attention by Dr. Beebe. After regaining consciousness and recovering from the shock she was able to be taken to her home in the evening. Both cars were badly smashed and had to be removed. The other car was driven by a Santa Ana man who received slight injuries.

Buggy Smashed
When Mr. and Mrs. E. A. Collins of East Santa Ana street were driving east on Center street yesterday afternoon their buggy was hit by an auto at Los Angeles street driven by Mrs. Haviland of Holtville, Cal. Mrs. Collins was thrown from the buggy and suffered a severe fall to the pavement.

She was taken to the Sanitarium and given first aid and later was able to be taken home. It appears that the car was not under control on account of faulty brakes. The brakes had been fixed at Santa Ana but were again out of order before reaching this city. Luckily the car was running at a low rate of speed or the accident would have been a more serious one.

WESTMINSTER NEWS BUDGET

WESTMINSTER, June 26.—A very pleasant surprise party was given Miss Elizabeth Reed at her home on Friday evening. Miss Reed is president of the Presbyterian Christian Endeavor Society. The members elected her to go to the state Christian Endeavor convention at Oakland on July 8 and 9. A goodly company arrived about 8 o'clock on Friday evening, bringing a large basket of greetings for the president. Among other things in the basket was a sum of money, enough to defray all expenses of the trip. Refreshments and a good time were enjoyed by all. Nearly everybody in town took in the pier celebration Saturday and Sunday, at Huntington Beach.

Earl Frost and bride of Los Angeles surprised his parents, Mr. and Mrs. Harrison Frost, on Saturday. The parents did not know of the wedding until the time. The bride returned to Los Angeles Sunday evening, where they will make their home.

Edgar Smith of Goshen spent the weekend with the family of his uncle, J. A. Murdy.

Howard Stuart left Wednesday for his home in Visalia, after a two weeks' vacation spent with the J. D. Cavanah family.

Lois Smithling, Helen and George Linn attended the Huntington Beach High school banquet at Hotel Virginia, Long Beach.

Mr. and Mrs. Willis Warner and Mrs. Bee Stockton went to Rocky Point on Friday evening to the Huntington Beach High School alumni picnic.

Rev. Alfred Inwood, district superintendent of the San Diego district, conducted the business meeting of the M. E. church on Wednesday evening.

Mr. and Mrs. Burley, spent Sunday and Monday with Mr. and Mrs. Hayes at Long Beach.

Mrs. Banham and Miss Ida Banham were over-Sunday visitors in town.

The following communication has been sent to the Register: "Editor Register:—Owing to some misunderstanding in regard to the ultimate disposal of the present school site, in case of a change of location for the new \$15,000 school building at Westminster, let us state for the benefit of any who may have been misled that the property is deeded to the school trustees and their successors and was bought for a valuable consideration. In no way is it possible for the land to revert back to the former owners or to their estate, other than by actual purchase.

"It has been suggested that, should the people vote a two-thirds majority in favor of the plaza for the new school building, the old school site be used for park purposes.

"Very Respectfully,
"MR. and MRS. W. B. MCCOY."

LESS MEAT IF BACK AND KIDNEYS HURT

Take a Glass of Salts to Flush Kidneys if Bladder Bothers You

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly back-ache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.—Advertisement.

MARTIN IN ARMY PLANE BREAKS RECORD

First Time Government Test
Achieved; L. A. Made Craft
Ascends 4600 Feet

Los Angeles Tribune: Carrying 350 pounds extra weight, in addition to a four-hour supply of gasoline, Glenn Martin, Los Angeles aviator, yesterday at San Diego ascended to a height of 4600 feet in the remarkably short time of ten minutes, surpassing the records made in this test by all other American makers of aeroplanes.

The record flight, which was made from the United States aviation camp on North Island, marked the successful completion of several days of tests made by Martin for the government.

According to C. S. Willard of the Glenn Martin company here, who received a telegram from Martin last night, telling of his triumph yesterday, the government altitude test is a severe one for an aeroplane, and no other machine undergoing it under official observation has hitherto been able to get above 3000 feet, carrying the required extra weight.

The flight is viewed as a distinct triumph for Los Angeles-made planes and one that will put the local product far in advance of any flyer made commercially in this country.

The 350 pounds extra weight carried by Martin consisted of Lieut. Leroy Muller of the Aero corps, acting as observer, and full army equipment.

Martin's official speed Wednesday, as averaged in four flights, was given as seventy-five miles an hour.

CORNELL FAVORED IN POUGHKEEPSIE REGATTA

POUGHKEEPSIE, N. Y., June 26.—Cornell was favorite in the historic intercollegiate regatta to be held here over the regular course on the Hudson today. The University of Washington crew, winner of the Pacific Coast Intercollegiate Regatta, because of its recent rapid improvement, admittedly was a dark horse, with Wisconsin feared in some quarters as a possible runner up. Adherents of Columbia, Syracuse and Pennsylvania, however, were confident and willing to back their beliefs with bets on their favorites.

One of the greatest crowds in the history of the famous race lined the banks, packed the observation trains and crowded every available vantage point to witness the annual struggle for college supremacy on the water. The varied colors of the fair spectators' dresses added brilliance to the ranks of the thousands who cheered the various crews.

SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to
Restore Color, Gloss
and Thickness

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. Besides, it takes off dandruff, stops scalp itching and falling hair. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.—Advertisement.

CONSUMERS SAVE \$48 DAILY ON BERRIES

Weights and Measures Law
Makes Difference to
Bill Payers

According to estimates made by County Sealer George McPhee there are about 300 crates of berries brought daily to Santa Ana during the berry season. When McPhee first went to work enforcing the weights and measures law he found that each basket in every crate was from one to four ounces short, making about four boxes per crate short. Since the law has been in effect berry consumers in Santa Ana have been saved about \$48 per day, this being the average value of "short" berries before the law went into effect.

CHEATING IN GAMES

English court society is upset over a charge that a member of the royal household has been caught cheating at poker. This indicates much feeling against gambling crookedness. The craze of playing bridge for money has swept through English society until a girl can not even get a job as governess without knowing the game. Women seem to compromise their good name by borrowing money to pay gambling debts, yet rarely is an accusation of cheating made.

In this country the man with the marked pack may earn his living. But he makes no social ties. In high society women are said to have loose ideas. One result is that some men say they never play for money with women. As a whole one would be slow to believe that American women play crooked.

In lawn tennis and golf a high standard of honor seems to prevail. A fellow who had once been caught could positively count on blackballs at almost any country club.

Yet many men are found who deliberately justify cheating in baseball. Many famous players in the big leagues have no hesitation in cutting straight from first to third base, provided the umpire is not looking. Half of the bleachers will rise and yell to applaud their cleverness, including many of the same men who would throw down a friend who shuffled in a marked card at poker.

Yet, everything of that kind is all of the same piece, and is ALL YELLOW. Perhaps the many college fellows who are entering baseball may help create higher standards. Yet the freedom with which they play under assumed names to dodge the rules against summer ball suggests that they, too, may have their crooked streaks. If one believes in fair play, a player having agreed to conduct a game according to certain rules should be willing to abide by the rules he has helped to establish.

The Seventh Day Adventists of Montana have petitioned Congress for the enactment of the Hobson prohibition bill. There is an interdenominational movement in that state for the location of the proposed university in some town where there are no saloons.

APPEAL TO YOUNG MEN

The Stockton Record is one of the independent papers of the state that is supporting Governor Johnson for re-election. It is doing so not on partisan grounds, but solely because it believes the politics which have marked the present administration are those which make for progress in the state and the highest good to its people. The Record is looking forward and not backward, and it cannot understand why any number of the young men of the state should enroll themselves in Republican clubs and register as Republicans. In discussing the duty of the young men of the state in this campaign, the Record says:

"We marvel at the movement to organize young men's Republican clubs to oppose the Progressive administration of California. It is not natural for young men to turn their faces backward. It is not natural for them to plant themselves in the way of forward movements. It is not natural for them to revive dead issues, or to move under the inspiration of tradition or prejudice. Young blood pulsates with more militancy. With life it seeks to meet life. It has the heat of high resolve, of broad purpose and optimistic courage. In some way these young men are being misled, and they are not thinking with their characteristic courage and independence. It is no discredit to a young man to be a Progressive even if his father were a Republican. Father was not always a Republican. It was only after the Whig party had disintegrated and after the Free Soil and other like parties had failed that father united with the other young men in the Republican party. The Republican party was not bequeathed to father by his father. He joined it because at that time it offered the best medium for the preservation of the union and freedom. And even as the Whig or Free Soil man had to leave his party and seek a new medium for his patriotism so today young men must turn their faces away from the past and toward the live issues of the day. It is the issues of today and not of yesterday that concern the young men of California. They would scorn to be apathetic and 'old-fashioned folk' in any other affair of the day; why should they be so in politics?"

"Young men, take a thought and

have a care. The glorious past of the Republican party is secure. Why not help to make the glorious present-day accomplishments of Progressivism secure? You owe it to your state to take a stand in behalf of the forward movement under the colors of Progress so gallantly carried by Hiram W. Johnson."

The saloon of the North St. Louis Turnverein has been discontinued because of lack of patronage and the room will be converted into an ice cream parlor. It was declared that it has been a losing proposition for some time. This German club saloon, which has been in existence thirty-six years, was formerly a chief source of funds for the organization.

The Political Watchtower

When a candidate arises at a comfortable hour in the morning, and goes forth smiling to encounter the day's doings, he may not be prepared for a jolt, but he may get one just the same. That is why running for office is interesting. You never can tell what a day is going to bring forth. However, last Wednesday was not a day of that kind. Every candidate had it pretty well figured out where he was going to land about sundown of that day. His Mecca for that period of time was Brea, where the oil flows—Brea, where the derricks lift their forms skyward—Brea, where the sunbeams beam and the fogs cometh not—Brea, where there are 600 voters awaiting the handshake.

On the theory that the early birds gets the worm, two or three candidates went up the night before. Others left trails of dust Wednesday afternoon while the sun was still close to the zenith. Truly, friends, it was a great gathering of the faithful and the unfaithful—the matter of faith depending upon how one stand upon each and every candidate. The candidates ate of Brea's chickens, they lubricated their political machinery with Brea oil, and they spoke in friendly fashion to Brea. These Associated Chambers of Commerce banquets are great goods.

Joe Burke was there, and he amused himself pending the time when it was time to turn to with knife and fork by introducing the candidates. He got Charlie Ruddock, Howard Wassum and Charlie Jackson together and had them walking arm in arm along the sidewalk. It wasn't a question of who would win in August, but who would eat the most at the banquet, and, believe me, those three fellows are some eaters. Joe was not satisfied with getting the candidates for sheriff together. He had Lester shaking hands with Jerome and Williams talking politics with Roper, while Sleeper and Vegely discussed the wonderful growth of Brea. Since Coroner Theobald and Surveyor Leslie McBride are without opposition, Burke introduced them to each other. Joe was having the time of his life when the call for grub was given, and he was the first man up the stairs. His efforts had a-hungred him.

Speaking of Joe Burke reminds me. Joe is the only candidate for the Republican nomination for assemblyman. This last week Hans Weisel of Anaheim, assemblyman, declared through the Register that he wants the Progressive nomination. That is not all that has happened in the assembly, for it is known that there is a strong probability that within a day or two a Democrat will be out seeking the gift of the Democratic nomination for that same office of assemblyman of the seventy-sixth district. If the Watchman has caught the wireless signals correctly, W. W. Simon is the gentleman referred to.

And that is not all. We have just a word or two more to bestow upon this position. There are the Socialists. The Socialists believe in preserving their party identity, and in their program of preservation and political promotion it is proposed to put Justin Stewart of Balboa, once upon a time of Smeltzer and Huntington Beach, upon the ticket as the Socialist nominee. And for the same reasons the prohibitionists expect to name a man for assemblyman, though as yet the name of the pure water man has not reached the Tower.

The Socialists are going to have a picnic. Sometimes we say a man is having a picnic heating the other fellow, or that a ball game is a regular picnic. The Socialists are going to have a picnic according to the dictionary. They are going to gather at Birch Park on July 12, Sunday, and at that time they will talk over the local political situation. A. E. Hawley, a prominent Socialist, is of the opinion that it will be arranged at that time to get all the county ticket on the ballot. The Watchtower has word that another prominent Socialist thinks that the Socialists will put only the candidate for assemblyman on the ticket, though that need not worry them until November. Hawley says that at the aforesaid forthcoming picnic the matter of \$10 per name for getting the nominations on the ticket will be attended to.

We are back to the office of constable of Santa Ana township. We have

had occasion on occasions to speak of this office. It is quite productive of remarks in this department of the Register. Away back at the beginning we found that Constable C. E. Jackson was going to desert it in order to run for sheriff. Then we noted that Frank Heard is a candidate for re-election, and later along came Henry Isenberg. There are two constables to be elected. Then suddenly candidates began to drop out of the sky. There was talk of this man running and that man getting in. C. I. Pond, the Vance street grocer, started after the job. Russell Coleman, bike dealer, mounted a bicycle and way he went. We heard John Ryan was going to run, but he wasn't. We heard Budge Lacy was coming, but that he denied. We got it straight that Harve Hossler was a candidate. He might have been, but he is not now. The withdrawal of Hossler has just about caused S. A. Clark of Santa Ana to see his way clear to announcing his candidacy. Take it from me, Clark is almost persuaded.

CHARMING LUNCHEON

Mrs. Fred Sutton of Oklahoma Guest of Honor at Pretty Social Event

A charming luncheon was given yesterday by Mrs. Ella Fyfe at the charming home of Mrs. Fyfe and her mother, Mrs. George Richardson Smith, on French street. So lovely is this home that flowers, there was a profusion, seem its perfect correlative. Shasta daisies and roses were used over the house and the table was centered with Cecil Brunners and ferns in a cut glass vase. The color motif of pink prevailed in the table appointments and in the various luncheon courses.

The honoree of the event was Mrs. Fred Sutton of Oklahoma City, Oklahoma, a cousin of Mrs. Fyfe and a charming woman who is prominent in her state. She was selected as one of Oklahoma's commissioners for the Pacific Panama Exposition, and is now on her way to San Francisco in that capacity. She leaves Santa Ana tomorrow for the Bay City, but will later return here for a further visit with her relatives.

Those invited to meet Mrs. Sutton yesterday were: Mrs. A. J. Crookshank, Mrs. E. M. Lealley, Mrs. J. P. Baumgartner, Mrs. Frank Case, Mrs. Fred Case, Mrs. Addie Collins and Miss Collins. Covers were laid for ten including the complimented guest, Mrs. Sutton; Mrs. Smith and Mrs. Fyfe.

Don't miss next week's program, "A Million Bids," in five reels. This is a modern drama of everyday life in high society. In addition there will be a splendid musical program.

LOS ANGELES PRODUCE MARKET

Cauliflower is once again on the market in quotable quantities, and is being shipped out on the list of very fancy stock. It is selling at \$1 to \$1.25 per dozen heads, and is grown in La Habra district. Ranking with this is the golden heart celery, which is moving freely at \$1.25 a dozen.

The tomato market slumped very decidedly on receipt of large proportions from Imperial Valley, as well as the heavy arrivals from local growers. The high-priced tomatoes are a thing of the past, for this year at least. Quotations were down as low as 25 cents a lug box. Better grades sold as high as 75 cents. Okra sold around 8 cents, and is not very plentiful as yet. Cucumbers were in good call, and sold from 40 to 50 cents a box. Lettuce is selling at 75 cents a crate on fair stock.

Black grapes were the feature of new arrivals on the market of fruits. They sold at \$1.50 a lug box, and were of good quality. Water white and seedless Thompson sold for less than at any time this season, bringing as little as 80 cents a box. Cantaloupes and watermelons held steady at the low prices prevailing. Local cantaloupes are coming in to the extent of decreasing shipments from the outside in order to hold the market steady. Plum receipts from the north are coming in, as well as some fruit of this kind from the south, which is in advance of the local late varieties.

There was a merry market on eggs, a determined effort being made to force the market back to 26 cents, which failed. The northern market is reported strong.

CHRISTOFFERSON ACHIEVES MT. WHITNEY

Flies Over Peak at Altitude of 15,728 Feet—Wins American Altitude Record

INDEPENDENCE, Cal., June 26.—Silas Christofferson, the aviator, flew over the peak of Mount Whitney, 14,898 feet high, in a biplane, yesterday. He attained an altitude of 15,728 feet and established a new American altitude record.

In the first flight yesterday morning he made a perfect flight, attaining an altitude of 13,428 feet in 54 minutes, but failed to clear the summit because of the cold.

On the second flight he spiraled up 15,728 feet in 56 minutes, and was successful. The second flight was started a number of hours later and watchers on the ground at Lone Pine saw the aviator go over the peak. On the journey back to earth, Christofferson started for Bishop, but was forced to land at Davison Creek, where an automobile was sent to take him to Bishop.

Christofferson, upon landing, said his barograph showed he had reached the altitude of 15,728 feet in his flight

EDWIN JANNS STILL AT IT

Signing of Various Papers Subject of Examination Today

Edwin Janns is still on the stand in the trial of the Yorba Linda water case, and the plaintiffs are not yet through with him. How long the defendants will quiz the secretary of the Janns Investment Co. is not known, but the way the case is moving along Judge Thomas may be at it for three weeks. Nearly all of the testimony today concerned the signing of various agreements of sale. Janns, though called by the plaintiffs, is affiliated with the defendants. The plaintiffs believe that from him they have secured much of great value to them in building up their case against the promoters of the Yorba Linda tract.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots—How to Remove Easily

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the cure. Be sure to ask the druggist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.—Advertisement.

IN THE JUSTICE COURT

PEDDLER ACCUSED; STREET SPEAKER ALSO IN TROUBLE

Two men are in trouble, each accused of improper conduct. Ed. Widerfelt, a peddler, is charged with unlawful acts after he had taken two little girls with him in his wagon. His hearing before Justice Cox is set for June 27.

J. Laffin, who has been here for several weeks, often speaking on the streets for L. V. W. doctrines, was arrested by Policeman Ryan. The city marshal has believed for some time Laffin was the man reported to him as having been seen following women.

Justice Cox set \$10 as the price for running an automobile without having the numbers displayed as the law requires. Mrs. M. M. Burge was arrested by Officer Balaclava. FORD'S HOSPITAL PLANS DIVULGED

Auto Man to Change General Hospital to Cancer Institution

DETROIT, June 26.—Henry Ford today announced the details of his plan to change the Detroit general hospital, which he recently took over when promoters failed to raise the money for completion, into a cancer institution. He declared that the hospital is to be devoted to the prevention of cancer rather than to its cure. He has already spent \$400,000 on the project and plans to invest \$2,000,000 in addition.

FOOT CRUSHED AS BARN BURNS DOWN

Mrs. Robert McCuiston Painfully Injured While Aiding in Fighting Fire

TALBERT, June 26.—On Tuesday night a large barn on the N. H. McCuiston place at Talbert was destroyed by fire. A number of farming implements were burned up in the flames. The origin of the fire, which seemed to have started in the center of the building, which had been reconstructed from a former dwelling house, is not known.

A distressing feature of the fire was an accident to Mrs. Robert McCuiston, wife of the son of the owner. The Robert McCuistons are at present in charge of the ranch. While assisting in carrying articles out of the burning barn, a falling post dropped on Mrs. McCuiston's right foot, literally crushing it. Dr. Violett of Garden Grove was called and the badly injured foot was soon taken care of. It is now in a plaster cast, but recovery will probably be slow.

The McCuistons are particularly grateful to the neighbors for their aid in fighting the fire and for otherwise assisting.

BOTH JOHNSON AND MORAN CONFIDENT

By Philip William Simms (United Press Staff Correspondent.)

PARIS, June 26.—With the world's heavyweight championship battle but twenty-four hours away, both principals, Jack Johnson and Frank Moran, today expressed the utmost satisfaction with their condition. Moran said: "I will not predict how long the fight will last. It will end whenever I find an opportunity to put a right punch to end it at one blow. The French rules do not allow Johnson to hold my arms. This is one of his best tricks. Without it he will be helpless. I am in excellent shape and am confident I will win."

Asked if he was nervous, Jack Johnson laughed and said: "I should say not. Moran is a nice fellow and a pretty good fighter, but he has no chance with me. People say I am too fat and am all in. If I have lost my punch I don't know it. I feel all right for the bout, and the fight itself will tell whether I'm right or wrong. Put a bet down on me. I know I'll win."

Johnson finishes his last gymnasium work tonight, when he has planned a public exhibition, charging two francs admission.
